

# Call For Papers

**9th International Migration Conference**  
**Mother Teresa University, Skopje, North Macedonia**

**20 November,**  
**2025**

The Migration in Motion: Trends, Transformations, and Governance conference, represents a crucial platform for advancing understanding and dialogue on one of the most pressing global issues of our time. Migration affects economic development, social cohesion, human rights, and political stability across regions, yet its complexities are often underexplored in interdisciplinary forums. By bringing together scholars, practitioners, policymakers, and civil society actors from around the world, this conference provides a unique opportunity to share research, exchange best practices, and foster collaboration across borders. With a special focus on Southeast Europe and the Balkans, the event also highlights regional experiences while situating them within global migration trends, making it an essential venue for shaping evidence-based policies, innovative solutions, and inclusive approaches to migration governance.

## Topics

### Global Migration Trends

- Patterns of international migration, mobility, and demographic shifts.
- Comparative perspectives on migration flows across regions.

### Forced Migration and Displacement

- Refugees, asylum seekers, and internally displaced populations.
- Humanitarian response, protection mechanisms, and policy challenges.
